

PHASE ONE

THE WAYS AND THE WILL
OF THE GODS

- 1** Shake all six numbered Divination coins from the Divination Shell as normal and leave each coin showing the Yin or Yang face on which it landed.
- 2** Place the black-side-up coins first. Since their numbers are visible, place each one directly into its corresponding numbered position.
- 3** Fill the remaining empty positions with the white-side-up coins. Their exact numerical order does not matter for resolving the Divination result—the important information is which positions show Yin and which show Yang.
- 4** Resolve the Divination normally using positions 1–3 for the Lower Divination and positions 4–6 for the Upper Divination.
